## New Key Programming Software compatible with HYUNDAI KIA\* ADS2331 - Code D756916AD

Advanced Diagnostics is pleased to announce a new software release to read the security PIN code for most of the latest models from Hyundai\* and Kia\* including the popular Sportage\*, Soul\*, Kona\*, i10\*, i20\* and i30\*

 ADS2331 PIN Code Reading software reads the PIN code directly via the OBD socket for many previously unsupported models. For models where PIN code reading is not supported via OBD, the software can read the PIN code from a working key via the Smart Aerial+ (ADC245) when connected to Smart Pro.

 Il software ADS2331 legge il codice PIN direttamente tramite la presa OBD per molti modelli precedentemente non supportati. Per i modelli in cui la lettura del codice PIN non è supportata tramite OBD, il software può leggere il codice PIN da una chiave funzionante tramite Smart Aerial+ (ADC245) quando è connesso a Smart Pro.

 Die PIN-Code-Lesesoftware ADS2331 liest den PIN-Code direkt über die OBD-Buchse für viele bisher nicht unterstützte Modelle. Für Modelle, bei denen das Lesen des PIN-Codes über OBD nicht unterstützt wird, kann die Software den PIN-Code von einem funktionierenden Schlüssel über den Smart Aerial+ (ADC245) lesen, wenn eine Verbindung zur Smart Pro besteht.

 Le logiciel ADS2331 PIN Code Reading lit le code PIN directement via la prise OBD pour de nombreux modèles qui n'étaient pas pris en charge auparavant. Pour les modèles où la lecture du code PIN n'est pas prise en charge par l'OBD, le logiciel peut lire le code PIN à partir d'une clé fonctionnelle via la Smart Aerial+ (ADC245) lorsqu'elle est connectée à Smart Pro.

 O software de leitura de código PIN ADS2331 lê o código PIN diretamente através do soquete OBD para muitos modelos anteriormente não suportados. Para modelos onde a leitura do código PIN não é suportada via OBD, o software pode ler o código PIN de uma chave funcional através do Smart Aerial+ (ADC245) quando conectado ao Smart Pro.

 Este nuevo software ADS2331 lee el código PIN directamente a través del puerto OBD para muchos modelos que anteriormente no era compatible su lectura. Para los modelos donde la lectura del código PIN no es compatible a través del OBD, el software puede leer el código PIN desde una llave que arranque usando la Smart Aerial+ (ADC245) y la Smart Pro.
